A few hours can put YOU in control!

In this workshop, you will be provided a space that not only provides proven curriculum based education, but empowers people to create healthy habits by building relationships (friendship and camaraderie) with others in a similar situation.

If you or someone you love has been diagnosed with pre-diabetes, type 2 diabetes, or is caregiving for someone with a diagnosis, please join us for this interactive and supportive workshop.

“Participating in the Healthy Living with Diabetes course is a great way to receive quality information in a non-clinical setting. In addition, participating in the course allows people to connect with others who have similar diabetes-related interests and goals. I often recommend the course to patients that I work with due to the content, varying days and times that it’s offered as well as its affordability.”

~ Marie Smith, RDN, CDCES, Prevea Health

Registration is required. Space is limited.

Deadline to register is one week prior to start date, or upon filling.

Call ADRC (920) 448-4300 to register or for more details.

Reasonable accommodations for disabilities are available, please request 5 days in advance.
