Hospice and Palliative Agencies in Brown County

300 S. Adams St, Green Bay, WI 54301

Phone (920) 448-4300

www.ADRCoftbrowncounty.org

Description:

Are you weighing the pros & cons of continuing treatment?

Do you need more help with your condition?

Do you & your loved one(s) need support through a terminal illness?

Are you concerned about coordinating your care?

Would assistance paying for medical equipment, supplies, and medications related to your illness be helpful?

Hospice can assist you & your loved ones through all of these situations by providing support throughout a terminal diagnosis, helping you make decisions & coordinate services, so you or your loved ones do not have to go this alone. Hospice services are for individuals with a six-month (or less) prognosis of a progressive, chronic illness. **Hospice is not just for those having issues managing pain, are homebound, or are imminently dying.**

Payment:

Medicare, Medicaid, and most private insurance companies cover hospice services at 100% coverage (including durable medical equipment, supplies, and medications related to the qualifying diagnosis).* **Southern Care Hospice offers uncompensated care/charity and Unity Hospice (including the Jack & Engrid Meng Residence) offers CommUnity Care.*

Common Services**

- Medical care
- Emotional & spiritual care
- Durable medical equipment, supplies, and medications
- Volunteers (i.e. friendly visits, light household chores, sitting with a patient)
- Grief support (up to 1 year after)

Hospice Team (Care Providers)**

- RNs (weekly visit)
- Nursing assistance (1-2 times/week)
- Chaplains & social workers (1-2 times/month)
- Volunteers (based on your needs) *(Honoring Veterans Program matches veteran volunteers with veteran patients.)*
- Grief counselors (based on your needs)

Services Provided In:

- Your home
- Hospital or nursing home setting***
- Specific hospice residence (Unity Hospice's Jack & Engrid Meng Hospice Residence in Brown County)
- ***If residing in a nursing home or hospital setting, check to make sure that facility contracts with the hospice agency of your choice.*

***Care is evaluated on a case-by-case basis. As your condition changes, the hospice team re-evaluates the type of care and number of visits you & your loved one(s) need.*

Continuing Treatment & Seeing Your Primary Doctor:

You have the right to restart a traditional form of care at any time. If your condition improves, you can ask to be discharged from hospice to allow for more curative treatment. Most payment sources will allow you to re-enroll in hospice for an unlimited number of times, but check with Medicare, Medicaid, or your insurance company/HMO for specific details prior to discharging.

Using hospice does not mean you have to give up seeing your primary care doctor. While hospice agencies do have their own medical team with their own doctors, it is common to have both the hospice agency and your primary doctor working together on your case. Know that you can still visit your doctor for services related to and unrelated to your hospice-qualifying, terminal diagnosis.

Contact ADRC for help with hospice agencies and other questions 920-448-4300.
