ADRC IPAD LOAN PROGRAM

ADRC Aging & Disability Resource Center of Brown County

Interested in attending one of our classes or workshops but don't have the technology to do so? We can help! We have Apple iPads available for you to borrow so you can join us online.

Don't have internet access? Don't worry, we've got that covered, too.

What the iPads can be used for:
• One time classes/presentations
• Series of classes/workshops
• Support groups

You'll also have the option to get a short, one-on-one tutorial from staff to help you get accustomed to using the technology and how you would go about attending your class from it.

You will need to sign an agreement of use when picking up the equipment. iPads are only intended to be used for ADRC programs by the individual checking it out.

Ready to join us online?
