The use of the internet has grown greatly in the recent years. Social media sites have, for example, become quite popular among people of different age groups. However, this increased use has come with data threats, privacy issues, scams, and more. Learn how to protect yourself by learning about:

- Using strong and unique passwords
- Privacy settings on your device
- Scams, spam, and unsolicited emails
- Safety when online shopping, banking, charity, and travel
- Safeguards when meeting new people online
- And more!
