You may have heard people using terms like “the cloud,” or “cloud storage.” But what exactly is the cloud? Simply put, the cloud is the internet. More specifically, it’s all the things you can access remotely over the internet. When something is in the cloud, it means it’s stored on internet servers instead of your computer’s hard drive. We’ll explore cloud storage services such as Google Drive, iCloud Drive, and Microsoft OneDrive, and how to access cloud storage services with apps or a browser.
