

ADRC & Youth Transition Planning for Students With Disabilities

Transitioning from school to adulthood is an exciting time, but can often be overwhelming, confusing, and filled with uncertainty, especially for students that have disabilities.

ADRC is here to help you navigate topics including:

- Discussion of rights and responsibilities when turning eighteen
- Decision making supports and guardianship
- Continuing education and/or employment
- Access to adult long-term care programs
- Information on applying for public benefits including healthcare and disability
- Healthcare changes

We are here to listen to your story, hear what goals you have set for yourself (or even help you set up goals), and guide you in finding the resources in the community.

Our specialists provide information about eligibility for benefits and explain the process on how to apply. If you need help advocating for yourself or feel you have been incorrectly denied for benefits, we can assist you with the next steps.

We give you the options so that **you** can make the decisions best for your journey.

We are here to help. Contact us today!
