This is your opportunity to share your story and make an impact on how legislators understand important topics affecting people across Brown County.

Individuals are invited to speak for a few minutes on one of four topics:

- **Housing:** especially focused on affordable, accessible, or unhoused experiences
- **Caregiving:** including supportive care for those in the family caregiver role and those receiving care
- **Food Security and Nutrition:** especially focused on food pantries, FoodShare, home delivered meals experiences
- **Affordability and Public Benefits:** including access to benefits and insurance coverage
